

Bosch vision of IoT ecosystem enablement and the impact on connectivity networks

Olaf Kautz, Bosch Software Innovations - Spearheading the Internet of Things

The Bosch Group: Four business sectors

| | | | |
|------------------------------|--|--|---|
| Mobility Solutions |  |  |  |
| Industrial Technology |  |  |  |
| Energy and Technology | Building  |  |  |
| Consumer Goods |  |  |  |

Bosch Group: 2015 Key figures¹⁾

| | | | |
|---------------------------------------|---|--------------------|---|
| Bosch Group | <ul style="list-style-type: none">70.6 billion euros in sales375,000 associates223 production sites* | |  |
| Mobility Solutions | <ul style="list-style-type: none">One of the world's largest suppliers of automotive technology | 60% share of sales |  |
| Industrial Technology | <ul style="list-style-type: none">Leading in drive and control technology, packaging, and process technology | 40% share of sales |  |
| Energy and Building Technology | <ul style="list-style-type: none">Leading manufacturer of security technologyGlobal market leader of energy-efficient heating products and hot-water solutions | |  |
| Consumer Goods | <ul style="list-style-type: none">Leading supplier of power tools and accessoriesLeading supplier of household appliances | |  |

1) Preliminary, rounded-off figures as of 01.16 *as of 04.15

Agility at Bosch

Key success factor for established companies in the connected age

Source: [Agility at Bosch: mission impossible?](#)

Becoming more agile

- Start-up platform / innovation clusters as incubators for new business ideas
- Scrum as anchor of agile IoT development for products, software, and services

” We can draw on the strengths of the Bosch Group: we take the steadfastness, power, and range of an ocean-going tanker and combine it with the speed and agility of a speedboat.

*Dr. Volkmar Denner,
chairman of the Bosch board of management*

Bosch Software Innovations

Global presence and milestones

Germany

Chicago

Sofia

Shanghai

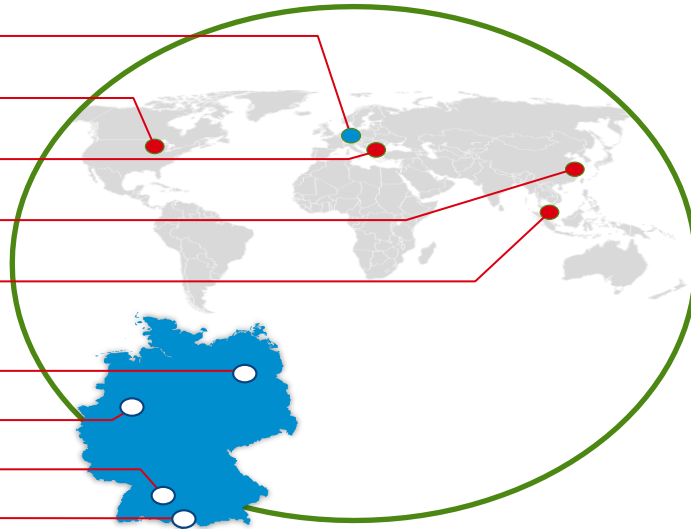

Singapore

Berlin (HQ)

Cologne

Waiblingen

Immenstaad

2016

Launch of Bosch IoT Suite (PaaS) and Bosch IoT Cloud

2015

Bosch acquires ProSyst Software

2015

First European testbed for the Industrial Internet Consortium

2014

Bosch ConnectedWorld conference premieres

2013

Launch of Bosch IoT Suite

2012

Bosch IoT Lab opens at University of St. Gallen

2011

Bosch acquires inubit AG

2008

Bosch acquires Innovations Software Technology

The IoT technology and solution provider

We lead companies into the connected world

Market presence

5.1m

connected devices using
Bosch IoT Suite and ProSyst

Know-how

700+

IoT experts around the world

Projects in many business areas

150+

IoT international projects in the areas of
manufacturing, mobility, energy,
home & building, city, agriculture ...

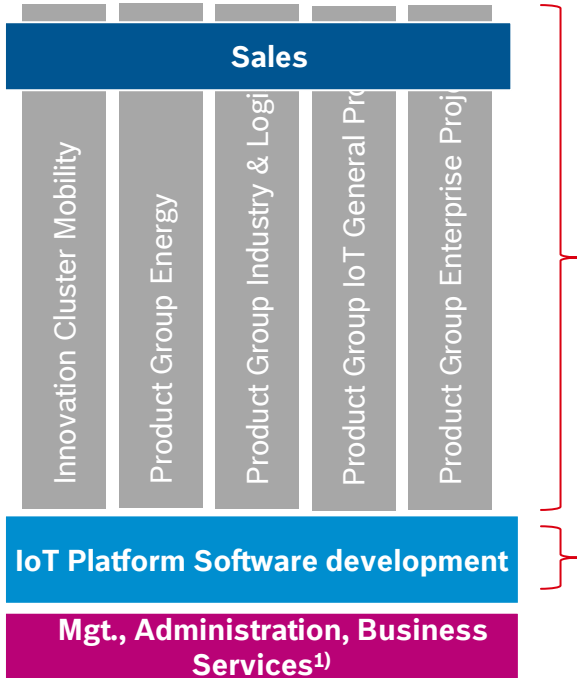

Bosch early IoT visionary

2008

Bosch Software Innovations emerged
out of the two earliest acquisitions in the
IoT space

Bosch Software Innovations

Organization

Deliverables

**Solutions
(system projects)**

and

**applications
(software)**

 **Bosch IoT Suite**

1) i.e. Strategy, HR, Controlling, Marketing, Quality Mgt. Process Mgt., Purchasing...

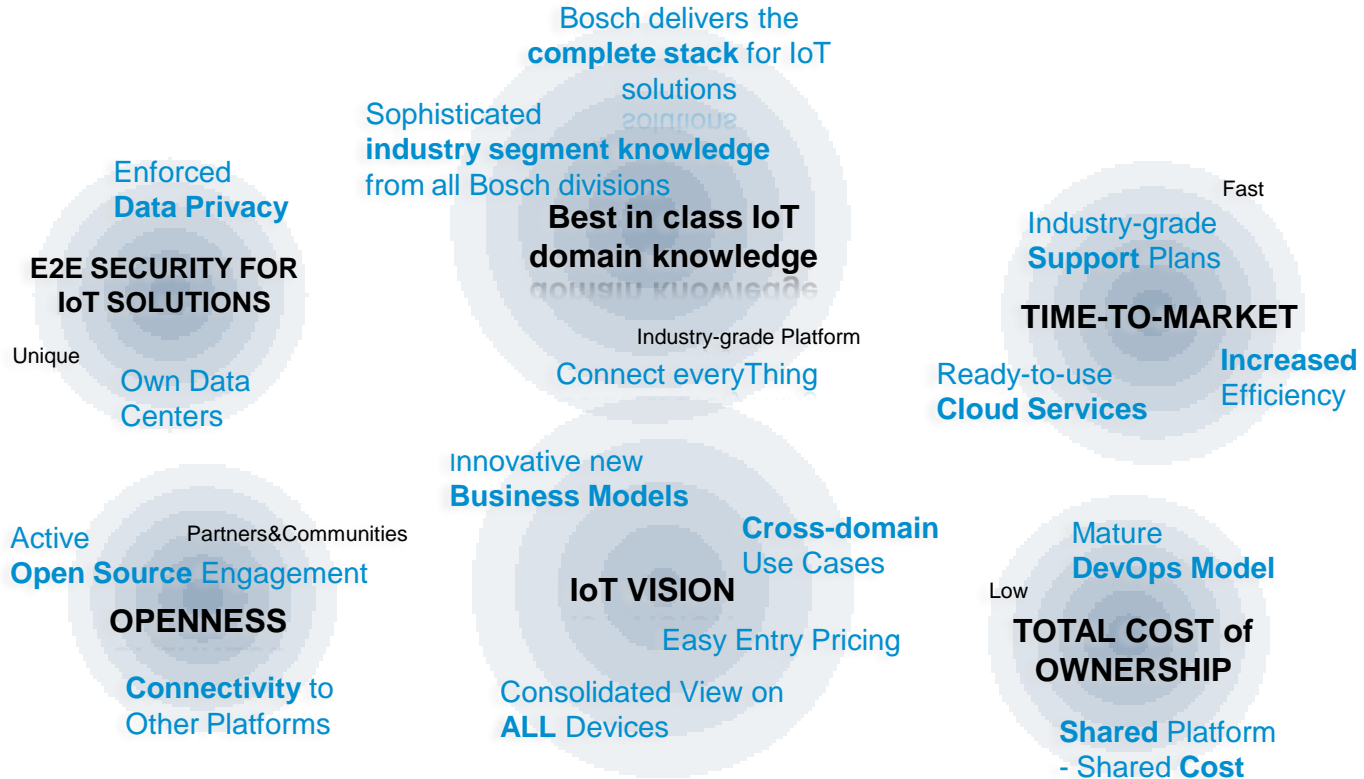

IoT solutions for a connected world

Leading IoT competence, technology, solutions and services

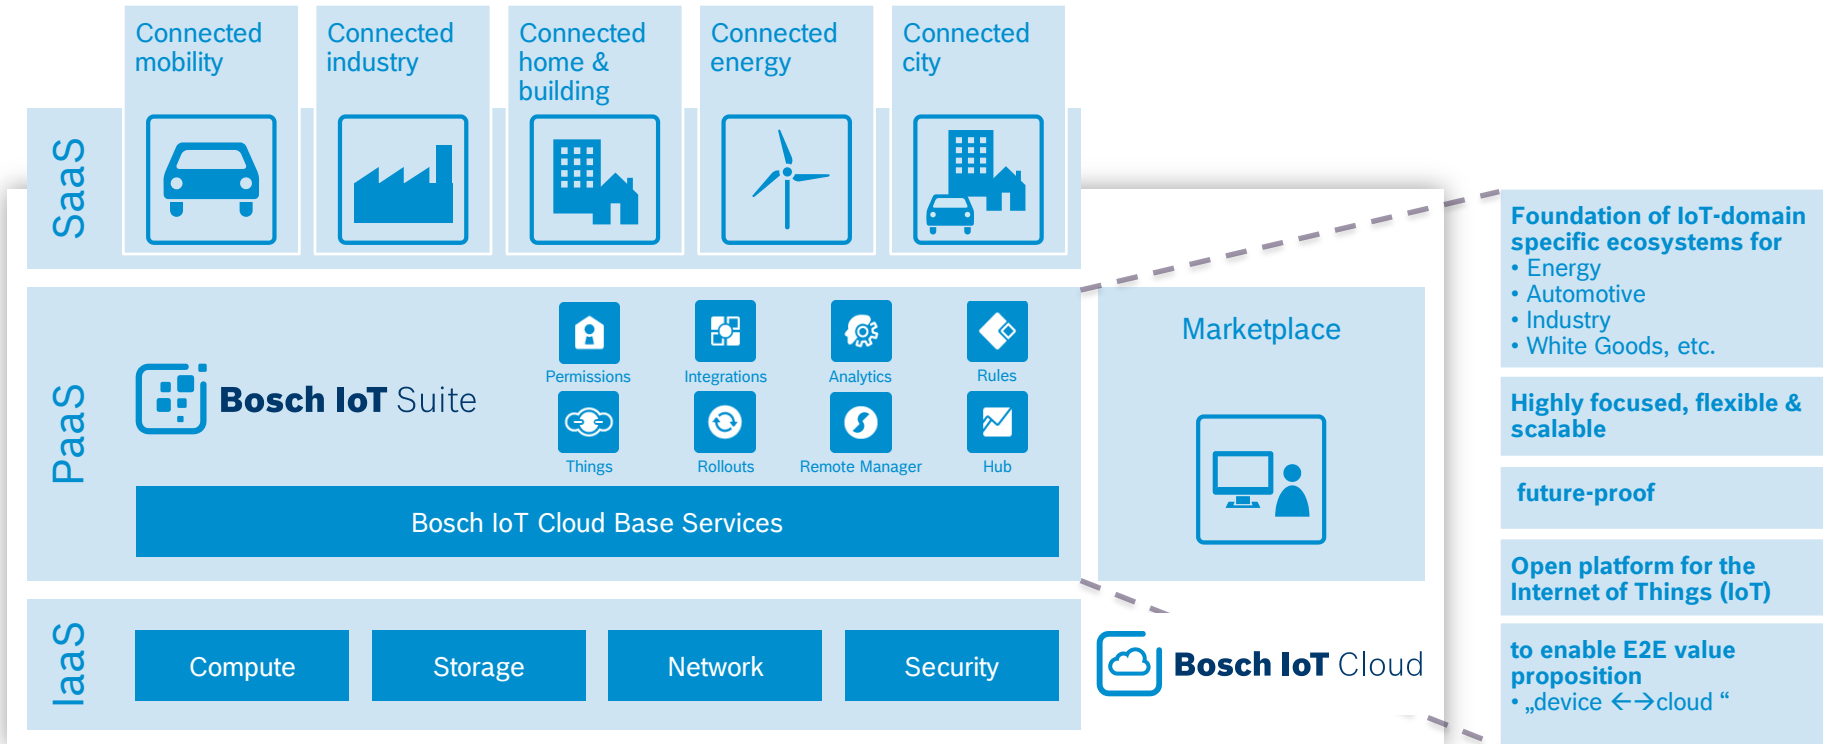

Industry-grade IoT Platform

Success factors

Bosch IoT Suite running in the Bosch IoT Cloud

Elastic scalability and new business model: Platform as a Service

Foundation of IoT-domain specific ecosystems for

- Energy
- Automotive
- Industry
- White Goods, etc.

Highly focused, flexible & scalable

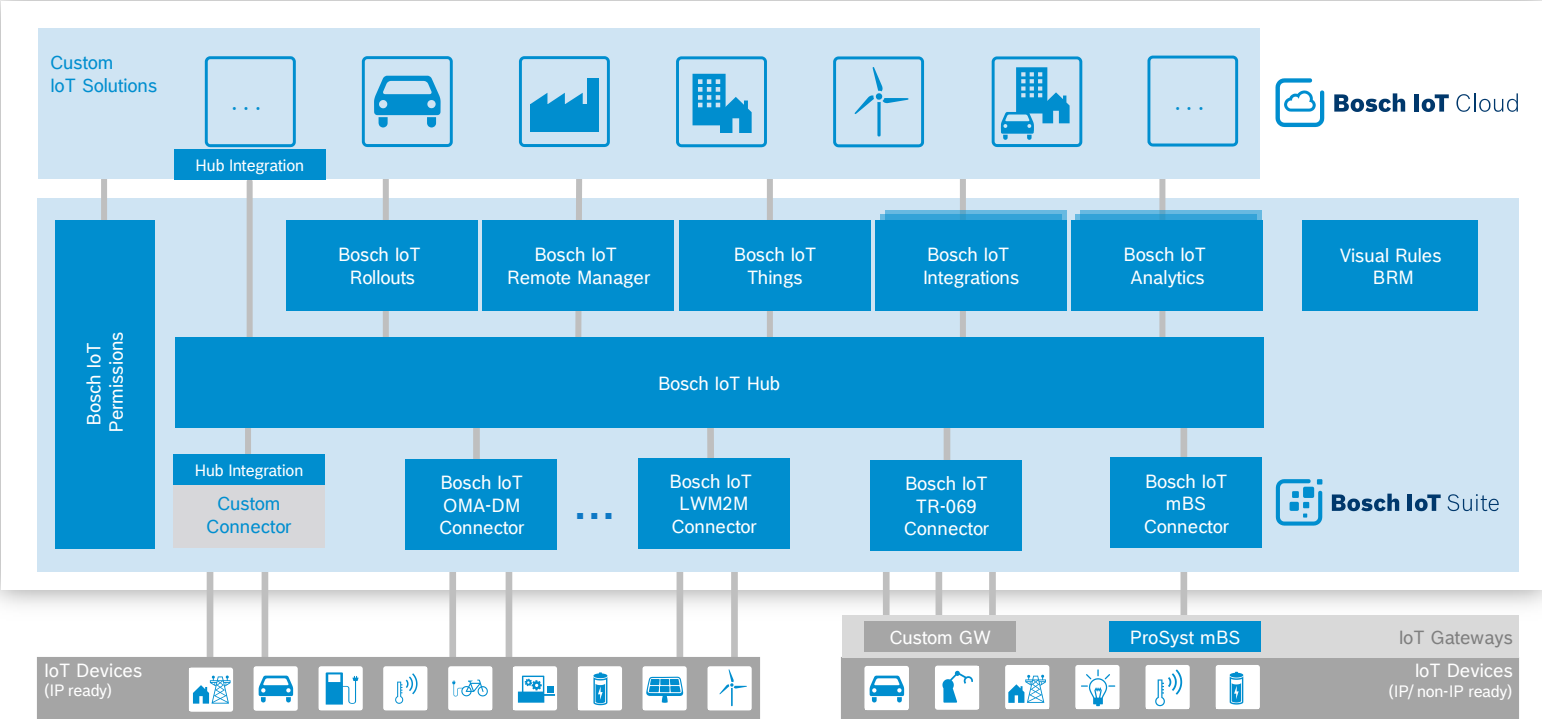

future-proof

Open platform for the Internet of Things (IoT)

to enable E2E value proposition

- „device ↔ cloud “

Bosch IoT Suite Architecture

Bosch IoT Suite Services

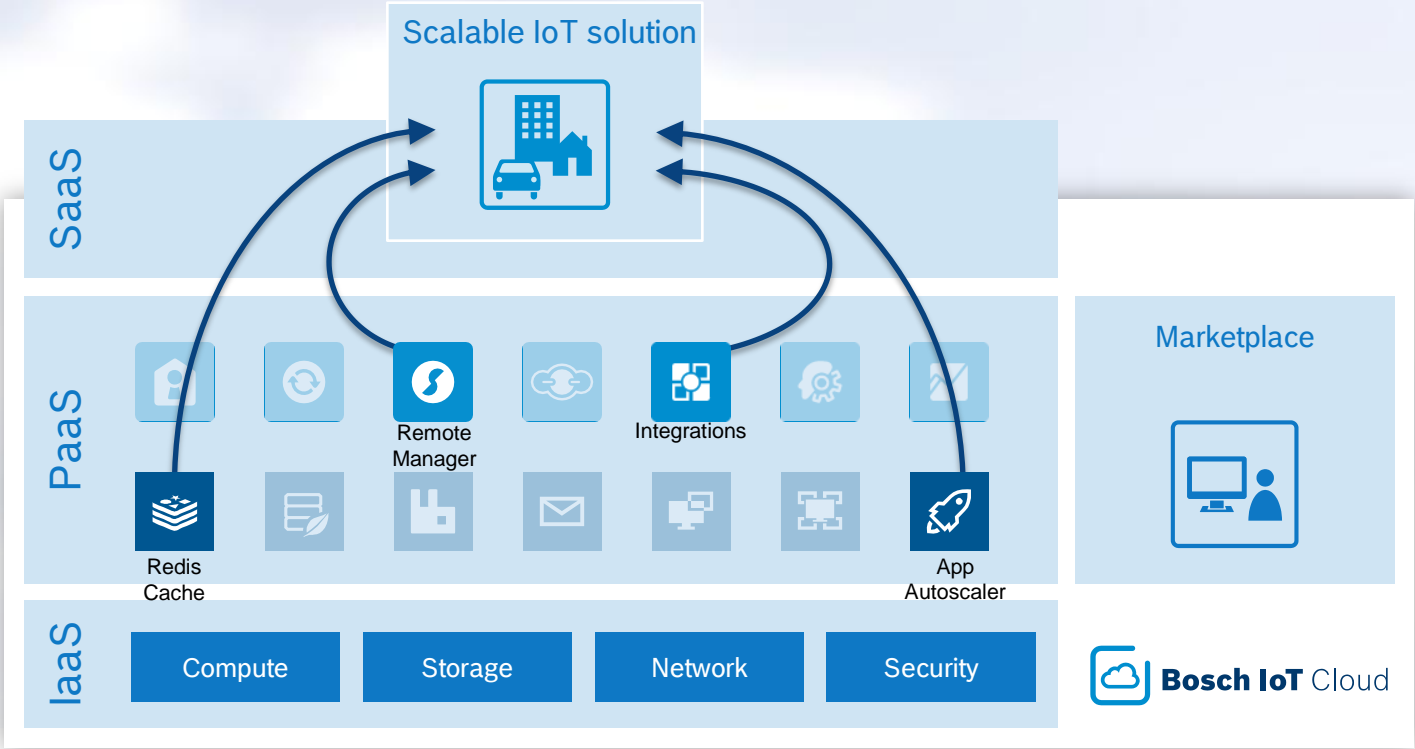

Tailor-made for IoT scenarios

| | Cloud Service | Service Description |
|--|---------------------------------|---|
|  | Bosch IoT Permissions | User management, role-based access control and multitenancy for IoT applications. |
|  | Bosch IoT Rollouts | Manages large-scale rollouts of device software or firmware updates, both wired and over the air. |
|  | Bosch IoT Remote Manager | Administration of device functions like network connection, configuration, monitoring, etc. |
|  | Bosch IoT Things | Digital Twin. Central Management of Asset Data and Secure Messaging for the Internet of Things based on Device Abstraction usable in any IoT solution. |
|  | Bosch IoT Integrations | Provides a flexible framework to build, monitor and manage easily extendable IoT solutions that integrate services and systems using best-practice patterns (EIP). |
|  | Bosch IoT Analytics | <ol style="list-style-type: none">1. Workflow Execution Service: Fully-managed, scalable Web-application to train and run KNIME-based analytics models2. Anomaly Detection Service: Fully-managed, scalable Web-application to detect anomalously behaving things in the field3. Usage Profiling Service: Fully managed, scalable Web-application to analyze & profile usage behavior |
|  | Bosch IoT Hub | Messaging backbone for device-related communication as attach point for various protocol connectors |

Bosch IoT Cloud Services orchestration

Plug-and-run IoT apps and solutions

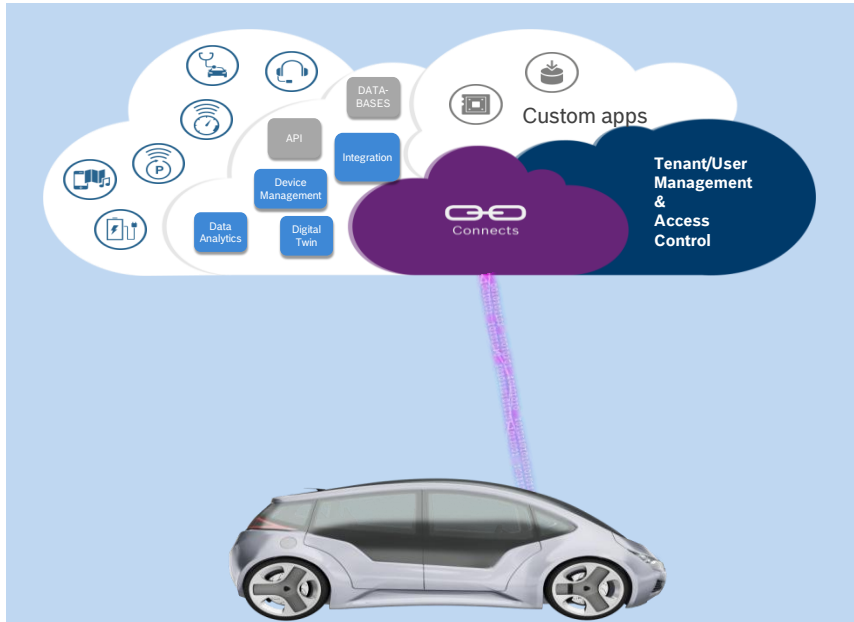

Bosch IoT Platform in Practice

Technology for a ConnectedWorld.

Use Case Example – Connected Car

Open and innovative concepts

A cyberphysical world based on Open Information Models (Eclipse VORTO)

- Create or just use your digital twins on open source software
- Share it with partner, communities,...
- Create eco-systems

Use Case Example – Connected Car

Are your assets safe? - Security and Access Control

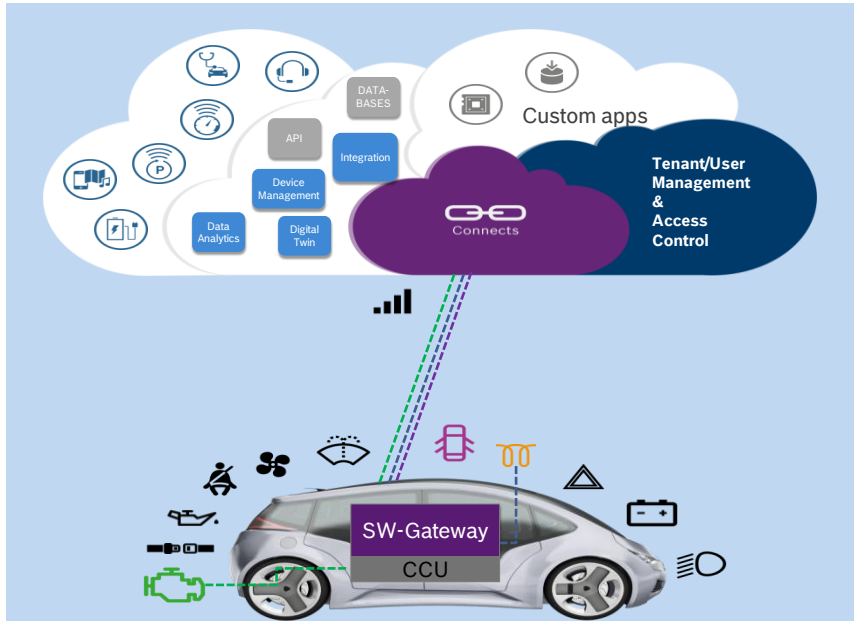

Strong E2E Security based on

- **Central and fully integrated**
 - Tenant, & User Management
 - Access Control down to the device
- **Embedded Software Agents and Certificate Management powered by escript**

Use Case Example – Connected Car

The mobile world – future, fun and problems at the same time

Efficient and reliable communication E2E needs best in class technology partners

- **Comprehensive Connectivity Management to deal with multiple connectivity options, e.g.**
 - Cellular
 - WiFi off-load
 - Car2X
- **Sophisticated QoS Management to**
 - Share resources (e.g. Radio) efficiently
 - Prioritize Events, Messages, Applications, ...
 - Minimize latency for time critical UCs

Blogging **Internet of Things**

Technology inspiring a connected life
