

Building a Fully Connected, Intelligent World

# The 13<sup>th</sup> Global MBB Forum

## 5G Leads the Stride

October 25-26, 2022, Bangkok

Dear Sir/Madam,

We cordially invite you to the 13<sup>th</sup> Global Mobile Broadband Forum hosted by Huawei on October 25 and 26, 2022 in Bangkok, Thailand, and supported by our industry partners GSMA and GTI.

The Global MBB Forum is far more than just an event. From the first forum in Oslo in 2010 to this year's one in Bangkok, it provides a platform for ICT leaders to come together and drive the mobile industry forward and unlock the power of mobile connectivity.

The 2022 forum offers an opportunity for the mobile and adjacent vertical ecosystems to reconnect, rebuild, and reimagine a fully connected, intelligent world. With the strongest speaker line-up and innovative product launches, the mobile ecosystems are back together to explore how mobile broadband technology is shaping the future and continuing to transform people's lives and industries.

Topics to be discussed range from harnessing the full potential of 5G, to advancing the mobile future, including the latest developments of 5G-Advanced, intelligence, and green 5G. This year's forum will be a hybrid physical and virtual event, heralding a new era of connectivity and collaboration for the mobile ecosystem.

Thank you for your ongoing support. I look forward to seeing you in Bangkok this October!

Sincerely,

  
**Ken Hu**  
Rotating Chairman, Huawei

Industry Partners  
**GSMA** | **GTI**
