Company Profile

Fibocom is the first stock-listed enterprise in the wireless module and solution industry in China (stock code: 300638). We are committed to enabling industries with reliable, accessible, secure, and intelligent wireless solutions and wireless module products to maximize their value, providing a perfect wireless experience to people and enriching smart life of the whole society. Fibocom provides innovative 5G/4G wireless modules and integrated wireless solutions for FWA applications. We have globally more than 1000 employees and deliver products and services in 100+ countries.

Fibocom Wi-Fi 6 Module
Chipset: QCA6391
WLAN Frequency 2.4GHz/5GHz
BT: 2.402GHz~2.480GHz BT protocol: BT5.1
Footprint: LGA 21.5x19.5x2.1mm
WLAN standard: IEEE802.11 a/b/g/n/ac/ax, 2x2+2x2, dual MAC
Modulation: CCK, BPSK, QPSK, 16QAM, 64QAM, 256QAM, 1024QAM
Encryption: WPA3 Operator mode: AP, STA
Timeline: 2020 Q3

Application Scenarios
5G+ Wi-Fi 6 CPE  5G Telematics  OTT Box

CPE Embedded with Fibocom 5G modules

Indoor CPE
5G module + 2.5Gb/5Gb/10Gb PHY + 802.11n 2.4G Wi-Fi module
POE Power Supply
Waterproof/Dustproof/Ultraviolet-proof
Omnidirectional & Directional antenna

Outdoor CPE
5G module + Gateway+ Wi-Fi 5/6 module
AC Power Supply
Indoor reliability requirements
Omnidirectional & Directional antenna

Wireless Connectivity Equipment Embedded with Fibocom 5G + Wi-Fi solution
Company Profile
Neoway Technology Co., Ltd., founded in 2006, is a hi-tech enterprise that is dedicated to providing communications products and related services for Industrial Internet of Things (IIoT). Our products include 2G/3G/4G/5G/NB-IoT/eMTC cellular modules, devices, neopipe cloud, and neoaccess cloud, which are widely used in Smart Energy, IoV, Smart Manufacturing, Commercial Retail, Smart City, and other industries.

Company Profile
Quectel is the leading global supplier of cellular and GNSS modules, with a broad product portfolio covering 5G, LTE/LTE-A, NB-IoT/LTE-M, 3G/2G, Wi-Fi and GNSS. As a professional IoT technology developer and cellular module supplier, Quectel is able to provide one-stop services for IoT cellular modules. Quectel products have been widely applied across IoT/M2M including for smart payment, telematics and transport, smart energy, smart cities, wireless gateways, industry, healthcare, agriculture and environment monitoring.

Quectel 5G NR Modules

RG500Q/RM500Q Series
- 5G/4G/3G multi-mode module with LGA/ M.2 form factors
- Supports Sub-6GHz Bands, NSA and SA modes
- Supports DFOTA, VoLTE and GNSS
- Rich interfaces: PCIe 3.0, USB 3.1, RGMII

RG801H Series
- 5G/4G/3G multi-mode module with LGA form factor
- Supports 5G NR Sub-6GHz Bands, NSA and SA modes
- Up to 18 interfaces: PCIe 3.0, USB 3.1, RGMII, SPI, PCM, etc.
- Powerful safety: TrustZone, Secure boot, etc.

RG500U Series
- 5G/4G/3G multi-mode module with LGA form factor
- Supports Sub-6GHz Bands, NSA and SA modes
- Supports DFOTA, VoNR, VoLTE, eSIM
- Rich interfaces: supports up to 4 external antennas, PCIe 2.0, USB 2.0/3.0
Constant Innovation in Cellular Modules

LTE-A/ LTE-A Pro/ 5G Roadmap

5G mmWave

Company Profile

Asiatelco Technologies Co. (ATEL) is the leading provider of wireless terminal products to its value customers worldwide. Its innovative products and solutions are widely used for reliable broadband access, IoT/M2M and voice communication with 4G LTE, 3G UMTS/EVDO and 2G CDMA/GSM wireless technologies. ATEL’s sales and marketing are globally positioned. It has become globally well-known company in the wireless industry due to its excellent products, solutions and services. In addition to its wireless terminal products, ATEL also provide products and solutions for Smart Home/Appliances.

ATEL was established in 2003. Since its inception, ATEL has been growing steadily with its sales coverage over more than 50 countries. ATEL’s business model is JDM/ODM for serving wireless operators and branded customers. With 14 years accumulated experiences, ATEL has built strong, effective and efficient team in R&D and manufacturing. Customers can always rely on ATEL team’s performance. Quality, Flexibility, On-Time Delivery & Lower Cost are key successful factors at ATEL and the key for customers’ satisfactory.

Company Profile

Shenzhen Dudar Co., Ltd. is focused on High-tech communications with wireless data transmission and terminal technology Enterprise, according to the requirements of customers hardware and software in the smart hard parts and back-office systems to provide solutions and customization service. The company is headquartered in Nanshan District, Shenzhen Science and Technology Park, at the same time with a research and development center in Shanghai.

Dudar products are mainly multi-mode LTE wireless data transmission module and wireless router, widely used in smart home, automotive, security, energy, medical, positioning and other fields.

### Product main features

-Built-in 2.5dB IEEE802.11n 2T2R wireless antenna
-Four RJ-45 LAN ports (Ethernet 10/100 Base-T)
-Two RJ-11 for FXS connectors
-Real-time T.38 IP fax
-SIP V2.0 (RFC 3261, 3262, 3263, 3264)
-RFC2543-based backward compatibility technology
-Session timer (RFC4028)
-SDP (RFC2327)
-RTP/RTCP (RFC823/903)

**Indicator light**
- Power LED
- Wifi LED
- WPS LED
- VoIP LED*2
- LAN LED*4
- USB LED*1
- Internet LED*1
- Network LED

**Weight**
- 12V DC power supply
- NO more than 500g

**Size**
- 90 mm (long)
- 35 mm width
- 165 mm height

**2 RJ-11**
- for FXS interface

**Powerled**
-RJ45 x 4
-1 WAN + 3 LAN
-Which WAN support 10/100M
Company Profile

Founded in 2008, Beijing Esound Technology Co., LTD. is a leading MBB service provider. We are committed to bringing every person intelligent mobile and infinite life. We have software R&D center and product MiFi CPE R&D center in Beijing, Shenzhen, customer service center along with cloud data center in Hohhot. We have 16 years experience in R&D and industry applications of MBB, specializing in sloving problems of various stages of Mobile Internet devices including connection, management, service, operation, etc. Our brand “Flymodem” “Huazheng Esound” have been the leading goats in the field of MBB, serving 60,000,000+ terminal customers and 20,000+ institutional customers.

Esound was rated as China’s best platform for IoT applications.

Company Profile

Frog International started in 2009 designing and manufacturing Mobile Phones and other Communication Devices. Having R&D and Manufacturing Facilities in Shenzhen it was clear to build up Overseas Business through Hong Kong. Over the Years we have build up a successful range of products and we have build up a reliable channel based on Local Kings and Carriers. Recently we have added IoT products and Wearables to our existing Feature- and Smartphones. One of our key success was the continuous focus on Quality and ID (Industrial Design).

Company Profile

Lintron Communication Technology Co., Ltd. is a high-tech enterprise integrating research and development, supply chain, manufacturing, import and export of data communication terminals. The company has MTK, Spreadtrum, Qualcomm, ASR, GCT authorization. The company was founded by a group of passionate and experienced veterans. Most of its core members have more than 10 years of experience in the field of communications and have strong R&D and design capabilities. It can provide a complete set of mobile terminal solutions ranging from structure, hardware, software, testing, manufacturing to quality assurance.

Hardware-centric IoT integrated solution provider

GosuncnWelink Technology Co., Ltd. (referred to as GosuncnWelink) is an IoT company under the Gosuncn Group (300098), focusing on Mobile broadband connection industry, providing professional fixed wireless access and mobile wireless products and solutions for global partners.

GosuncnWelink could provide 4G and 5G FWA products for MNOs and OEMs, including indoor CPE, outdoor CPE, MiFi, FWT and industrial gateway. In the past several years, GosuncnWelink has shipped more than 1,000,000 devices to global customers. We have established partnership with many MNOs in China, US, Latin America, Europe and Middle East etc. Our products are proven to be have high quality, security and good performance in global market.

The company was registered in 2011 and is headquartered in Shenzhen. It has R&D centers in Shenzhen and Xi’an. Set up branches/offices in Guangzhou, Shanghai, Hangzhou, Nanjing, Beijing, Chongqing, the United States, Hong Kong, etc. The company has more than 500 employees, 70% of them are R&D engineers.

Company Profile

Haiiot Co., Ltd. specializes in MBB market terminal and platform research and development, providing customers with terminal products and users to establish and connect pipes and provide traffic services. The team is committed to the communication terminal, MBB market for 18 years, the largest domestic TD-SCDMA terminal solution provider. In the history of mobile network evolution, tirelessly provide low-cost terminal solutions for market expansion.

## Company Profile

Founded in 1987, Huawei is a leading global provider of information and communications technology (ICT) infrastructure and smart devices. We are committed to bringing digital to every person, home and organization for a fully connected, intelligent world. We have more than 194,000 employees, and we operate in more than 170 countries and regions, serving more than three billion people around the world.

Huawei has deployed FWA service on over 200 networks in more than 120 countries and regions, giving more than 55 million users access to stable, high-speed broadband services. We provide best user experience (even in Ireland rural area, the average speed exceeds 50Mbps) through most advanced technology (Massive MIMO, FDD 8T8R etc). And we have already deployed 5G Standard FWA network in UK, Germany, Switzerland, Saudi Arabia, South Africa, Philippines etc.

## Market Footprint

China, Japan, Philippines, Sri Lanka, Thailand, UK, Germany, Switzerland, Ireland, Italy, Morocco, Egypt, South Africa, Nigeria, Brazil, Mexico, Argentina, Chile, etc.

### Outdoor CPE

**4G CPE Lite**
- Size: 114 x 180 x 42 mm
- CAT 12, up to 600Mbps
- 4x4 MIMO, 2CC CA
- Quick DIY

**4G B2368**
- Size: Φ125 x 240 mm
- CAT 12, up to 600Mbps
- 4x4 MIMO, 2CC CA
- Optimization-free

**5G WIN H312**
- Size: 112 x 30 x 187 mm
- 2.33Gbps/650Mbps (@100MHz, full ratio)
- 256QAM
- Easy installation

### Indoor CPE

**4G B312**
- Size: 125 x 125 x 25 mm
- Cat 4, up to 150Mbps
- 802.11b/g/n 2x2 MIMO 2.4GHz
- Connect up to 32 Devices

**4G B628**
- Size: 95 *95 *208 mm
- CAT 12, up to 600Mbps
- 802.11b/g/n 2*2 MIMO 2.4GHz & 802.11a/n/ac 2*2 MIMO 5GHz

**5G CPE Pro2**
- Size: 178 x90 x94 mm
- 5G NR 453Mbps/230Mbps (@20MHz, SA FDD full ratio)
- 5G NR 1.65Gbps/250Mbps (@100MHz, SA TDD 8:2 ratio)
- 256QAM
Company Profile

Founded in 2003, MaxComm is a leading provider of Wireless Communication products for Global markets. With strong R&D capabilities, MaxComm can launch some new products up-to-date to meet market requirements. Thanks for its marketing team and local distributors’ help, our products have reached some 30 countries worldwide. MaxComm main products portfolio included 4G/3G Fixed Wireless Phone/Terminal, 4G LTE CPE Routers(indoor/outdoor) and 4G/5G Industry M2M IoT Modem/Routers, etc. Some worldwide operators like Orange, MTN, Telefonica, Movistar, Claro, Telcel used to buy our products from time to time.

4G LTE FWP & 4G Outdoor CPE

4G FWP MW-63

- Size: 114 x 180 x 42 mm
- FDD-LTE: 150 Mbps
- DL / 50 Mbps UL
- 4 Color screen 2.8 inch 240x320
- Chipset SC9820E
- LTE CAT4, 3GPP R9

4G FWP MW-62

- Size: 200X185XS2mm
- FDD downlink 75 or 150Mbps; uplink 50Mbps
- WiFi HotSpot 802.11b, g, n, 2.4G
- 3.5 inch LCD display 480x320
- Chipset Spreadtrum 9820W

4G OWR-101

- Size: 175 × 170 × 80 mm
- Cat.4, optional Cat.6
- Dual LAN ports, both POE
- Easy installation
- Built-in 4G+WiFi Antenna
- IP 67 Water-proof Industry grade
4G CPE WR-106

- Size: 195 x 125 x 60 mm
- Cat 4, 150Mbps DL (Cat.6 Optional)
- 802.11b/g/n & AC 2x2 MIMO 2.4GHz+5G
- Connect up to 32 Devices
- RJ-11 phone port
- RJ-45 x 4

4G CPE WR-112

- Size: 180 x 130 x 50 mm
- CAT4, 150Mbps DL
- 802.11b/g/n 2*2 MIMO
- RJ-11 phone port
- Battery inside
- RJ-45 x 4

5G Industry CPE M-500

- Size: 155x105x25 mm
- 5G NR 453Mbps/230Mbps (@20MHz,SA FDD full ratio)
- 5G NR 1.65Gbps/250Mbps (@100MHz,SA TDD 8:2 ratio)
- 256QAM
- Support 50 WiFi Users
- Support dual-sim fail over
Company Profile

Founded in 2010, MOBOT Technology Co., Ltd. mainly focuses on the design, development and production of mobile terminal products and intelligent network equipment. Headquartered in Shenzhen, it has 80 R&D personnel and a production and processing plant in Yibin.

FWA’s product line currently focuses on the development of ASR platform and has rich experience in R&D and service. The product line focuses on medium and low-end.

Good cooperation with local King and operators in Latin American countries such as Telcel, Claro and Altan, and Asian operators such as Axiata Group (Dialog), African operator MTN, Russian operator MTS, TELE2, etc.

Company Profile

Shanghai Notion Information Technology Co., Ltd. has been a professional provider of LTE user equipment since its founding in 2010. Our experienced team of engineers have performed well on R&D and field supports, providing 4G Mobile data solutions to more than 50 countries. Dedicated to long-term cooperation with enterprises worldwide, our client-oriented policy has been always highly valued. With the constant support of our clients, we’re stepping steadily along the boulevard of 4G.

Company Profile

Founded in Oct, 2011, with constantly efforts, Tigercel is a software and high-tech company which owns a number of independent intellectual property rights. The company is in the communications and IoT industry and is engaged in the development, manufacturing, sales, and service of network communication access equipment, intelligent hardware, IoT devices and solutions. The Products and communication solutions it provided currently have been used in over dozens of countries and regions. “Innovation changes life” is always the concept Tigercel sticking to.

Tigercel provides customers with the overall solution of IoT innovation application, and also provide mobile Internet's overall operations and services for their own products' APP. The products are mainly for domestic telecom operators, overseas operators and overseas B2B2C brands or channel markets, as well as domestic B2B and B2C retail markets. Tigercel relies on and utilizes independent research and development technology and management advantages to obtain revenue and profits through equipment sales, software technology development, operations and services.

Company Profile

Tozed Kangwei is a pioneer of 5G/4G CPE provider, which was founded in Feb 2002 with registered capital 12 millions USD and 24 provinces branch offices all over China. Our main business is 4G / 5G ubiquitous IoT terminal and system equipments, artificial intelligence & industry applications, etc. We have a core team with more than 17 years experience in R&D, sales and service of communication equipment. We have rich experience in providing equipment and system solutions for telecom operators. Our products export to overseas 60+ operators, serving more than 5 million people all over the world. Our products are not only used to solve broadband access for home users, but also to facilitate data access for industry users. We aim to become a leading high-tech enterprise in 5G field and artificial intelligence.

Company Profile

ZMTEL is a startup founded in Shanghai in 2011. We have about 150 employees including 120 engineers. Our main business was WiMAX at the beginning and in 2015 we started to develop 4G CPE. Up to now, we’re able to provide 4G CPE from CAT4 to CAT 12 with multiple bands based on diverse chipset platforms. There’re more than 50 telecommunication carriers all over the world working with ZMTEL 4G CPE. ZMTEL is in tier I in terms of non-Qualcomm CPE manufactures. ZMTEL 5G CPE will be ready in Q4 2020 for testing and launch in the market in Q1 2021.
